*what  
do  
you  
consider  
lethal?*

While everything on this list can be fatal, traffic accidents are the leading killers of teens ages 16-19, ending more than 5,200 lives each year. Two-thirds of these accidents had nothing to do with drugs or alcohol. That's more than 3,000 lives lost from avoidable everyday driving behaviors and distractions.

You can make a difference. Make an Impact.
